

List of standards – new testing device for „determination of crack bridging properties“

EN 14224

Flexible sheets for waterproofing - Waterproofing of concrete bridge decks and other concrete surfaces trafficable by vehicles - Determination of crack bridging ability

CSN 73 6242, attachment C

Design and construction of pavements on road bridges

EN 1062-7

Paints and varnishes - Coating materials and coating systems for exterior masonry and concrete - Part 7: Determination of crack bridging properties

EN 15812

Polymer modified bituminous thick coatings for waterproofing - Determination of crack bridging ability

EN 13880-10

Hot applied joint sealants - Part 10: Test method for the determination of adhesion and cohesion following continuous extension and compression

EN 13880-13

Hot applied joint sealants - Part 13: Test method for the determination of the discontinuous extension (adherence test)

EOTA 008

Determination of the resistance to fatigue movement

EOTA 013

Determination of crack-bridging capability
